

# How to implement Observability Assessment for M365

## Partner Business Checklist

1. Partner Deal Registration – Discount Incentive/Protection
2. Customer Signs Up at the following link: [Observability Assessment Checklist](#)

Note: This will open a Trial tenant for the customer where you can run assessments for customers and use other SlashNext Products.

## Technical Checklist

1. Email Assessments requires Global Admin to provide trusted access through OAuth.
2. Working w/SlashNext determine Observability Period (default is 2 weeks).
3. 5 Minutes for the integration into M365

Note: The Observability Assessment is a Read-Only Version of SlashNext Email Protection solution.

4. Post Assessment work with SlashNext to develop the Assessment report including the number of detections, users attacked, samples of attack types.
